

EXPAND YOUR IMPACT AND REACH

Ensure that your library's goals support households across the area you serve. Integrating powerful demographics, *Gale Analytics* adds value to existing data—from your library's ILS and other electronic systems—unlocking key insights about your community.

The result? Dashboard better equip your library to target new populations, create new programs, advance your value to the community, and allocate resources more efficiently.

EMPOWER DECISION-MAKING WITH DATA-DRIVEN ANALYTICS

FOCUS ON PATRON NEEDS

Generate detailed dashboards that evaluate your engagement with patron groups so you can prioritize refinements to your collections, programs, services, and outreach.

MEASURE IMPACT

Gain valuable insights about your patron base, whether you're making day-to-day decisions or crafting long-term strategic plans. Refresh data as often as needed and get updated dashboards in minutes.

SELECT ANALYSIS CRITERIA

Customize your dashboard by modifying the service area, selecting cities and counties, or uploading a GIS spatial file, among other options. You can export dashboard visuals as PDF, PowerPoint, or PNG files.

MAINTAIN PRIVACY

To protect the privacy of individual patrons, data is disassociated from patron names and processed in a secure cloud environment. Dashboards are only saved to the library account.

MOSAIC® LIFESTYLE SEGMENTATION

With *Gale Analytics*, you can understand patron data with household-based segmentation from Experian, which classifies all U.S. households into 71 unique profiles.

Leveraging software from Alteryx, Inc., a leader in data blending and advanced analytics, as well as U.S. census data and Mosaic lifestyle segmentation, *Gale Analytics* provides ongoing access to detailed, customizable dashboards.

Gale Analytics: Community Insights screen capture as of April 2020. Actual interface may vary.

THE POWER OF DASHBOARDS

Made available through Tableau Reader, *Gale Analytics* dashboards give users the ability to transform patron data—drilling down into rich visuals, dynamic maps, and downloadable custom mailing lists based on segmentation.
