

TRACE THE DEVELOPMENT OF MODERN IRELAND IN THIS EXCLUSIVE DIGITAL COLLECTION

This collection of newspapers from the British Library has been carefully selected to represent a range of perspectives, both national and provincial, that have together helped shape Ireland as we know it today. Many of the newspapers haven't previously been digitized, enabling researchers to construct new and original analyses from once-marginalized voices.

ARCHIVE SNAPSHOT

Number of titles:
108

Number of pages:
Approximately 200,000

Date range:
1783–1950

Learning Center:
Yes! Launched in fall 2022.

VALUE OF THE COLLECTION:

This archive covers major events that have shaped modern-day Ireland. Because readership of the newspapers collected spanned all areas of society, *Part VI* will appeal to the growing number of North American university programs in Irish studies. Researchers can dive into:

- **Religion in Ireland:** the Protestant Ascendency, hidden Ireland, Unionism, and Catholic emancipation
- **Social and economic issues:** famine, Land War, and the Irish National Land League
- **Political developments and divides:** Home Rule, the “Irish Question,” and emergent ideologies
- **Cultural shifts and identity building:** the Irish diaspora, mass emigration, and the Irish Literary Revival
- **Conflicts and their consequences:** the 1916 Easter Rising, Irish War of Independence, partition, the Anglo-Irish Treaty, Irish Civil War, and World War I

THIS COLLECTION WORKS WELL WITH THESE GALE PRIMARY SOURCES ARCHIVES:

The first five collections in the *British Library Newspapers* series reveal views that go beyond the English press. They also complement the existing Irish newspapers that appear in *Parts I, III, and IV*, as well as newspapers from Scotland and Wales.

In addition, the collection complements *Nineteenth Century UK Periodicals*. These newspapers provide the Irish perspective and are an alternative to narratives established by *The Times*, *The Telegraph*, *Daily Mail*, and the *Mirror*.

OPTIMIZED FOR DIGITAL SCHOLARSHIP

Explore new research pathways and tell visual stories with historical data using *Gale Digital Scholar Lab*. This cloud-based research environment removes barriers to digital scholarship by enabling researchers of all levels to quickly build, analyze, and visualize data mined from primary sources, including *British Library Newspapers, Part VI: Ireland, 1783–1950*. Ask your rep about how to make the most of your *Gale Primary Sources* holdings with this invaluable tool that places the evolution of primary sources research within reach, and advances thrilling new research possibilities at your institution.
